

Ganterud L10 Heavy Duty

Ganterud L10 HD is a robust leveling unit that combines new and proven technology in leveling capabilities. With a capacity of up to 10 tons, this radio-controlled precision leveling unit minimizes installation time and improves safety.

SPECIFICATIONS

Lifting capacity:	Max. 10 tonnes
Leveling force:	Max. 4 tonnes
Max. leveling stroke:	1,5 + 1,5 m
Max. chain angle:	60° at 10-tonne load
Total chain length:	3 m
Chain dimension:	16 x 48 mm
Weight:	180 kg
Height:	720 mm
Width:	500 mm
Depth:	495 mm

Control System

Radio range:	100 m line-of-sight
Motor voltage:	24 VDC
Standby power consumption:	50 mA
Max. continuous power consumption:	24 A
Peak power consumption:	30 A

Certification:

CE-marked product

Environmental Requirements

Operating temperature:	-20°C to +40°C
Storage temperature:	-20°C to +45°C
Relative humidity (RH):	0-90% during storage

Optional Accessories

- Protective cover
- Extra batteries
- Transport packaging

The GANTERUD L10 HD levelling device is designed to manage everything from light to heavy lifting tasks, handling loads from 0 to 10 tonnes with a combination of proven solutions and modern technology.

Its reversible chain system provides up to 1.5 meters of chain per hook, allowing precise, flexible and adjustable levelling for a wide variety of objects.

With a single push of a button, the GANTERUD L10 HD enables fast and safe levelling, significantly improving productivity while reducing crane operating time and unnecessary downtime.

Built to perform in demanding environments, the unit maintains reliable functionality in temperatures ranging from -20°C to +40°C.

The robust housing and IP65-rated electrical system ensure strong resistance to dust and water, making the device easy to clean and requiring only minimal maintenance.

Routine service is limited to weekly battery charging, with the battery status clearly shown on the levelling device itself.

Operation is further simplified by an intuitive, IP67-rated radio remote control that enhances both safety and ease of use.

By combining durability, precision and user-friendly operation, the GANTERUD L10 HD offers a highly effective solution for achieving accurate object levelling while significantly increasing overall workflow efficiency.
